Instructor	Text Responses
	Question: Please share any additional comments about the course.
	This course was very well organized. I came in not knowing much at all about economics, but Prof. Plott teaches it in a way that is understandable for all levels.
	I think this is a function of the course being one that only meets once a week, but I was not able to retain all of the info from the class, of which there was a lot per class.
	Question: Please share any additional comments about the instructor.
Plott	Dr. Plott taught his content very well. He is very knowledgeable and communicated this effectively.
Plott	Professor Plott is incredibly knowledgeable about economics and is always able to give insight on any questions you have about the economy operates! Its apparent that he knows what hes talking about, and I appreciate how he gives us ample resources to see how microeconomics exists in the real world.
Plott	Prof. Plott is awesome. On rate my professor they said it was a difficult class...and they were right! I actually felt proud of my grade even though it wasnt stellar. I appreciate that Prof. Plott didnt belittle any question that was asked during class.
Plott	During lectures you explain things well and thoroughly, but sometimes you talk/lecture too fast. Also when writing on the board maybe write larger so it is easier to see from the back.
Plott	I think prof. Plott adjusted well to the transition to online. Hes a nice and interesting person, but this long form format is NOT for me. Too bad Im taking yet another night class next semester.

Plott	Meeting once a week means we are very limited to time and trying to learn the much material in 2.5 hours is not great.
Plott	I was worried about taking an economics class with no background in the subject. I think Dr. Plott did an awesome job of starting from the basics and building on them. I also enjoyed how he connected the things we were learning in class to current events, especially with regard to the COVID-19 pandemic.
Plott	He is for sure a difficult professor but he puts forth the effort that you do. So if you are willing to take the time to come into office hours and ask the questions you have he is more than willing to help you to understand and find the answers. This class was really hard for me but he said from day one that we will get out of it what we put in.
